Annisul Huq: File photo

The negative propaganda about ailing Mayor Annsiul Huq, who is now undergoing treatment in London, on social media is totally baseless, said a DNCC press release on Thursday.

The condition of Mayor Annisul Huq has improved further and he was shifted to rehabilitation from the Intensive Care Unit (ICU) on October 31, added the release.

Annisul, who had been suffering from neurological problems such as dizziness and lack of balance, was diagnosed with cerebral vasculitis at the London hospital. He got admitted to the hospital on August 13, according to UNB news.

Annisul flew to London in the last week of July on personal ground.
